

## Botswana

One of the finest safari destinations in Africa! Private, exclusive and wild...Africa of a bygone era where you experience a sense of timelessness and peace. The Okavango Delta is a world heritage site and a combination of the Okavango and the Linyanti makes for a perfect safari.

Botswana is comprised of several large private concessions with only one or two camps in each concession. Therefore only about 40 guests enjoy their private paradise as large as 1000 sq kms!

One of the best safaris in Africa is a combination of the Duba Plains and the Selinda concessions.

In Duba Plains it is a classic encounter of lion vs buffalo. Huge prides of lion hunt down buffalo in the daytime and guests staying for a 3 night safari have very high chances of seeing this thrilling but gory hunt! Duba is world renowned for its large lion prides hunting buffalo in the daytime!

In Selinda you can see huge elephant and buffalo herds and a variety of cats including lion, cheetah and the elusive leopard. Leopard sightings are especially good. Watching a leopard hunt in the fading light was the highlight of a recent safari at Selinda. The leopard stalked the hapless impala for one hour until it got to within 10 mtrs of its unsuspecting prey. At the opportune moment it leapt on its prey and the impala was down and the meal secured! We waited patiently with bated breath watching this spectacle of nature unfold before our eyes! And we truly felt the sense of timelessness which characterizes the rhythm of life. At Selinda, we were fortunate to see large herds of roan and sable the two most beautiful and rare antelopes. It was a spectacular sighting and was the icing on the cake!

May to November is the season for Botswana.

**Safari Africa invites you to enjoy this magical paradise...Botswana!**
