

## OLARE OROK

The Olare Orok is big cat country with amazing sightings of lion, leopard and cheetah during your private and exclusive safari.

The Olare Orok is a beautiful and largely open area of rolling hills and rich golden grass plains with streams lined by thick riverine vegetation....some of the prettiest landscapes in the whole of the Mara. It's large size of 35000 acres gives the herbivores plenty of grazing land and the predators extensive territory to make their own without clashing with rival predators.

It is big cat country with one of the highest concentrations of lion, cheetah and leopard in the Masai Mara. There have been more than 50 raptor species identified in the conservancy. The game viewing experience is private and exclusive with off road driving close up to big game and authentic night drives.

The Olare Orok seamlessly borders the main reserve and the game moves freely between the main reserve and the conservancy. The main river

crossings are a short drive away and during migration season it is very easy to witness the major river crossings.

Accommodation is in luxury camps such as the renowned Mara Plains or Olare Kempinski or authentic bush camps such as Porini or Kicheche. These extraordinary camps offer the highest levels of hospitality, service, cuisine, guiding and above all one of the best safari experiences in Africa.

Plan an adventure to Olare Orok, Masai Mara, a rare and privileged safari experience!
